### PART IV.

#### "WATER CLAUSES CONSOLIDATION ACT, 1897."

**WHEREAS** the Greenwood City Water Works Company has applied, under the provisions of the "Water Clauses Consolidation Act, 1897," and Amendment Acts, for a certificate, in pursuance of the provisions of sections 85, 86 and 87, to enable the Company to proceed with its proposed undertaking of the construction of a hydro-electric power plant on Boundary Creek, below and near Boundary Falls, in the District of Yale, British Columbia, for the purpose of developing a supply of electric power for lighting and power purposes; and

Whereas the Company has filed with the Clerk of the Executive Council the documents required by section 85 of the said Act;

This is to certify that the undertaking as submitted has been approved by the Lieutenant-Governor in Council, and that the same is as follows:—

1. To construct the necessary works and buildings on a parcel of land known as Subdivision Lot 1, of Lot 821, in Group 1, Osoyoos Division of Yale District, as shown by the plan on file with the Clerk of the Executive Council and marked "A" for identification, for the development of power by the use of two thousand (2,000) miner's inches of water, which has been duly recorded, to be taken from Boundary Creek at a point approximately 300 feet above the Falls, and to be returned at a point about 1,500 feet below the point of diversion. It is proposed, and the Greenwood City Water Works Company are hereby permitted, to construct a dam at the point of diversion which will raise the level of the water 35 feet. From the said dam a thirty-inch supply pipe will be constructed, extending about fifteen hundred feet, to the power plant. The said Company also propose to construct a storage dam at the outlet of Long Lake, distant about eight miles north of the City of Greenwood, in order to save or economise the waters of said lake, and to release water therefrom as desired during the periods of low water, with the object of maintaining a uniform flow of water in Boundary Creek.

2. The generating plant to be installed within the prescribed period will consist of one 250 horse-power water wheel and one 150 Kilowatt Revolving Field Generator, 3-phase, 60 cycles, 6,600 volts.

3. At the generated pressure the current will be transmitted to Greenwood, Midway, or other points in the prescribed area, and there transformed to suitable voltage for commercial distribution.

4. And this is further to certify that the estimated cost of construction of the described plant is thirty thousand dollars (\$30,000). The time within which the works are to be in operation is within one year from the date hereof.

5. The area within which the corporate powers of the Company with respect to the said undertaking and works are to be exercised is limited to that portion of the District of Yale embraced within a circle having a radius of ten miles, whereof the City of Greenwood is the centre.

6. And this is further to certify that the Company shall retain, have, hold and may exercise such rights, powers, privileges and priorities, including the taking and expropriation of necessary lands as may be requisite for the proper carrying out and completion of the undertaking aforesaid; and this certificate shall be considered as supplementary to but not in derogation of any existing rights, powers, privileges or priorities now held by the Company.

Dated this 16th day of June, A. D. 1906.

FRED'K. J. FULTON,  
*Clerk of the Executive Council.*

NOTE.—The date of this Certificate is as now stated, and not as printed in the British Columbia Gazette of the 21st of June, 1906.

Circular.

DOWNING STREET,  
1st June, 1906.

SIR,—I have had recently under my consideration certain points which have arisen in connection with the position and treatment of Foreign Consuls in the Colonies, and, after communication with the Secretary of State for Foreign Affairs, I have thought it proper to lay down certain principles for the guidance of Governors. You will understand that it is not expected that they can be applied in Colonies where a different practice has been established, but it is my desire that Colonial Governors should look to them as a guide in future when opportunities occur of applying them without unnecessary friction.

2. No general instructions to Colonial Governors respecting the position and treatment of Consuls appear to have been issued since a date nearly forty years ago, when it was intimated that if in any Colony precedence was, as a matter of courtesy, already accorded to the Foreign Consular Body, no alteration

should be made, with the view of assimilating the practice to that in force in this country, without reference to the Secretary of State. It was observed, however, that Foreign Consuls in England have no claim of precedence, and are treated like any other Foreigners resident in England. This principle, I may now observe, equally extends to the Colonies, and it is not desirable that any instructions should be given tending to recognise the principle of according precedence to the Foreign Consular Body. In 1863, a claim was advanced by the Consular Body at Sydney to be admitted to the entrée at the Governor's levée on the occasion of the Sovereign's Birthday, and it was then stated that the rule of Her Majesty's Court was, that as Consuls-General and Consuls had no diplomatic character, and were not visitors of the Court, they fell into the class of Foreigners resident in England, and went to the general entrée and were presented in the general circle.

3. As regards privileges or exemptions, it was held, on a claim advanced by the Spanish Consul at Brisbane in 1856, that there were no privileges to which Foreign Consuls were strictly or legally entitled, as a right, in Great Britain or in any of her Colonies; that the English law considered them amenable to civil and criminal jurisdiction, did not give them, or allow them, any legal privileges whatever, and could hardly be said to recognise them in their official character; and that such privileges or exemptions as they might enjoy were conceded to them (if at all), either by the Executive or Local Authorities at their discretion or by usage and courtesy.

4. This decision should be carefully borne in mind as it would prove in the highest degree inconvenient if in British Colonies, Consuls of Foreign Powers should be permitted to acquire a claim to the privileges or immunities of diplomatic agents, or to assume in any other respect a footing different from that which they hold in the United Kingdom. Recent experiences have shown that this possible danger is a real one, and should be strictly guarded against.

5. In the correspondence which has given rise to the present despatch, His Majesty's Government has been asked for instructions on several points, and I deal with these in the order in which they have been raised:

(a.) As to ceremonials and formal courtesies. From the earlier part of this despatch it will be clear that the Consuls are not entitled to be specially received at public functions, and that they should not be given any precedence over local officials. In regard to this point, I may observe that, even if it were not objectionable on other grounds it would be impossible to lay down general rules as to precedence over officials, having regard to the varying importance in different Colonies of what is nominally the same office, and if special rules were laid down in each case they would give rise to endless claims from Consuls, founded on the practice elsewhere which was not favourable to their contentions. The preceding considerations need not, however, prevent the Governor from specially receiving the Consuls, as a body, on certain occasions such as on the King's Birthday or on his own first arrival in the Colony, as an act of courtesy and not as a right, if this practice, which has been followed at the Cape since 1898, should be pressed upon him.

As regards visits, it has already been observed that Consuls-General and Consuls are not visitors of the Court, and it follows that they do not "visit" the Governor, who is the King's representative in the Colony. If they wait on the Governor, on any other occasion than for the transaction of consular business, they do so on the same footing as any prominent inhabitant of the Colony, and their visit does not require to be formally returned on the Governor's behalf.

(b.) With regard to the transaction of public business Consuls should, under no circumstances, be permitted to approach the Local Governments except on matters connected with the personal welfare of their countrymen as individuals, and if they should make any representations on general political questions they should in all cases be required to communicate them to their respective Governments, to be dealt with through the proper diplomatic channels. The only legitimate functions of a Foreign Consul in relation to a Colonial Administration are those connected with the welfare of his nationals as individuals, and, therefore, any questions with regard to trade and commerce which might affect the general commercial policy of the Colony would fall into the category of those which must be discussed through the respective Foreign Offices.

(c.) From what has already been said, it follows that no difference should be made in treatment, as between "consuls de carrière," and other consular officers.

(d.) As regards the practice of appointing a Consul General with local Consuls subordinate to him, all consular officers require recognition by the respective local Governments before they can enter on their functions, although such recognition is only withheld in the case of some valid objection to the appointment. His Majesty's Government would not interfere with the arrangements made by Foreign Governments for the performance of consular duties, and if, for example, a Foreign Government appointed a Consul General for South Africa, it would be open to that official in virtue of his exequatur to communicate (in the exercise of his duties as above defined) with all Governors in South Africa, and if the same Government appointed, in addition, a Consul in a South African Colony where the Consul General was not resident, His Majesty's Government would not require that consular communications with the Governor of that Colony should be made by the Local Consul and not by the Consul General, though they might reasonably require that communications connected with any one Colony should be with the occupant of one consular post only who would be designated by the Foreign Government concerned.

I have the honour to be,

Sir,

Your most obedient, humble Servant,

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows.—

In the BRITISH COLUMBIA GAZETTE, and in one news paper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon

a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, together with the notices published. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills

which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring  $10\frac{3}{4}$  inches by  $7\frac{1}{2}$  inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901 (*see Journals*, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

Dated 5th November, 1901.
